Meeting the Challenges

American Health Care Professionals (AHCP) established in 1995 is a Community Based Organization (CBO) located in Tysons Corner, VA. AHCP is Joint Commission Accredited and provides a comprehensive, patient centric model that provides home health, hospice, and prevention & wellness programs. We are extremely excited to be one of the first companies in the DC Metropolitan area to offer Telehealth and Mobile Health (mHealth) monitoring services.

AHCP telehealth remote monitoring services (RMS) utilize individual AHCP HEALTHwins™ devices and a multi user AHCP HEALTHwins™ kiosk.

AHCP wellness improvement network (W.I.N.™) team our champion and the implementation of prevention and wellness programs with both non profit and profited organizations.

AHCP's Mission:

Our vision is to empower individuals, caregivers, and communities to understand and better manage their health. We strive to keep people in their home's by providing compassionate, high-quality services and emerging technology to make health care affordable for those in need.

What is Home Care?

When you are ill or recovering from an injury, there is no place you would rather be than home with people you love.

Clients of American Health Care Professionals benefit from a comprehensive array of home health care services including diabetes management, cancer care, cardiopulmonary services, wound care, pre- and post-joint replacement care, and rehabilitation services following injury or stroke. AHCP also provides nursing care and rehabilitation following a hospital stay, and assistance with activities of daily living (ADLs) such as bathing, preparing meals, or light housekeeping. Home Health Care is the foundation of what we do at American Health Care Professionals. Our agency can be your single source for complete home health care, including specialized services such as home infusion therapy and hospice care. Our home health care team includes registered nurses, diabetic educators, certified nurse aides and home health aides, rehabilitation therapists, and medical social workers. We also can meet your home care needs for medical supplies. We offer individualized services and work closely with the family and health professionals to develop an appropriate Care Plan.
